

LEADERSHIP INSTITUTE 2: Leadership Principles and Practice

You are developing your own leadership style and now you are looking to focus on the tools and foundations to strengthen effective leadership skills. This 6-session hybrid series is designed to provide you with the practices and principles you need to motivate and empower those around you to develop an environment that inspires everyone. We will focus on the principles of The Leadership Challenge, by Kouzes & Posner, and others from significant contributors to the field of leadership. During the institute you will design, complete and present a leadership development project that positively impacts your program. **This institute is for those who have completed ACROSS NH Leadership Institute 1.*
